Responsive Web Design with Bootstrap 5

Responsive design has become an industry standard for creating websites. It is known to develop mobile-friendly websites, an increasingly important consideration in web design, which improves search rankings. Google even recommends it! Bootstrap 5 is the latest version of the Bootstrap framework, a combination of HTML, CSS and JavaScript that significantly simplifies building responsive and modern websites. This course will teach you all you need to know to develop responsive websites.

Modules Studied

Module 1: Introduction, Setup and the Grid System

Module 2: Working with Components and Forms

Module 3: Helpers, Utilities and Extras

Module 4: Course assessment
